

College Data

Panchatcharam M

Associate Professor

**Department of Mathematics and Statistics,
IIT Tirupati**

- Have a look at the CollegeData.zip
- It has College Data with many files collected from NIRF website
- It has the following heading
 - Affiliate Colleges
 - Standalone Institutes
 - Hotel Management
 - Nursing
 - Central University
 - State University
 - Institute of National Importance

- Consolidate all files and create a dashboard for the MoE
- When I click each state, it should give the list of different institutes for each state and each district
- Find the district that has more number of educational institutions
- Find the district and state that has the least number of education institutions
- Get the population of each state and see how many colleges per population available.

- Design another 5 problems that you can extract information and provide to from this dataset
- If you are employed in the MoE, what would be your recommendation to the MoE?
